ROSSER & MCCARTHY,

THURSDAY EVE, NOV. 22, 1888.

The report that Mr. Cleveland didn't write his famous tariff message is no doubt like a good many others started by Republicans—untrue.

The Republican editors of the North are busy asking: "What shall be done with the South?" Well, the best and most sensible answer is: "Mind your own affairs and let the South alone."

SEVEN thousand hands have been thrown out of employment by the shutting down of all the coal mines along the Monongahela river. The markets are supplied and the "coal trust" sells only when good prices prevail. What do they care whether labor finds employment or not?

JOHN C. NEW, of Indianapolis, a close friend of the President-elect, says that the civil service law will be rigidly enforced by General Harrison. Mr. New adds:

I do not believe that there will be any great haste in turning out the Democrats. There will be no clean sweep.

This is unpleasant news for the army of Republican office-seekers.

Now that we are defeated, whenever you hear a Democrat denouncing Mr. Cleveland, free trade, the Mills bill, Mr. Carlisle, Colonel Breckinridge, or anything else that is honestly Democratic, as cause of the defeat, you can safely set it down that that man is a Democrat "for revenue only."—Lexington Observer.

Yes, and that class of Democrats are too numerous of late. The Democrats "for revenue only" are as responsible for the recent defeat as the leaders.

MR. JOHN G. WORTHINGTON, a native of Mason County, was chosen Collector of Lafayette County, Missouri, at the recent election, by a majority of 1,111. He led the rest of the Democratic ticket by several votes. The salary and perquisites attached to the office amount to about \$4,000 a year. Mr. Worthington had served in the office as Deputy, and the large vote he polled is evidence that he had won the fullest esteem and confidence of his fellow-citizens. The Mason countian will work his way to the front.

HON. CHARLES Y. WILSON, Commissioner of Agriculture and Statistics, is preparing to get exhaustive statistics from all the principal towns and cities of the State as to the present condition and the increase of manufacturing industries. He will also complete reports on the resources of all the counties and the advantageous opportunities for investments. The more is a most commendable one and the report should be made as complete as possible, especially as to the advantages for investment. Let the world know more about our resources.

Statistics at hand indicate that the total manufacture of cigarettes in this country the present year will amount to 2,200,000,000.

The official report of the Chicago Board of Trades shows the visible supply of grain, on Saturday last, as follows, in comparison with the supply of the Saturday previous: Wheat, 34,812,000, increase 471,000; corn, 8,195,000, decrease 1,056,000; oats, 7,927,000, decrease 529,000; rye, 1,561,000, increase 5,000; barley, 1,814,000, increase 189,156.

Mr. James W. Fitzgerald, of this city, sold this week to Mr. Jos. Grear, of Winton Place, Cincinnati, the following trotting-bred horses: A brown mare sired by Ericson, for \$500; a bay mare sired by Berkeley's Edwin Forest, for \$450; a bay weanling sired by Alcandre, (2:26), dam by Berkeley's Edwin Forest, for \$400 and a black weanling by Alcandre, dam by Addison Lambert, (2:27), for \$600.

Religious Notes.
A recent protracted meeting in the Christian Church at Winchester resulted in eleven additions.

A revival in the Baptist Church at Twenty-Second and Walnut streets, Louisville, has resulted in over seventy-eight additions.

George Gabriel, who left recently \$10,000 to Yale College and \$15,000 to Yale Divinity School, made his fortune in New Haven by repairing umbrellas.

Colonel Bob Ingersoll has two pretty daughters, who until very recently were never allowed to enter a church. Some friend took the eldest, Miss Eva, a beautiful girl of twenty or thereabouts, into the cathedral not long since, and it is said she has been converted into a very earnest Christian.—Exchange.

The Catholic World bewails the fact that masses for the dead are becoming less common than formerly.

It says: "The grand old Catholic practice, once esteemed as a consoling and pleasing duty, of causing the holy sacrifice of the mass to be offered up for the repose of the departed friends or relatives, is, we regret to say, rapidly passing into the domain of tradition."

IMAGINATION CURE.

KEY TO THE MYSTERY OF A CLASS OF OBSCURE PHENOMENA.

A Story of Voodooism in South Carolina. A Bogus Charm—Dr. Carpenter on "Expectant Attention" and Its Effects—Sorcery and Witchcraft.

A South Carolina story appeared the other day, which, rightly considered, throws much light upon the interesting subject of negro superstitions, and, in fact, popular superstitions generally. A negro woman had been ill for some time, and "physicians were in vain," so at last she consulted a voodoo doctor, who prescribed application to a local sorcerer of repute. The sorcerer orally declared that a search of the sick woman's premises would reveal the presence of a charm by which she had been "voodooed," and gave a description of what would be found. Now the husband of the sick woman told a doctor all about the alleged charm, and the doctor for a joke fabricated a charm to answer the description, and hid it where it would be found.

So far all is plain sailing, but what appears to be regarded as extraordinary is the fact that from the moment the bogus charm was unearthed the patient began to mend, and rapidly regained her normal state of health. This is referred to as "the strangest part of the story," but really the strangest part of the story is the circumstance that at this day any one should think the matter at all mysterious, or should fail to apprehend the obvious and perfectly simple explanation of it.

A MOST POTENT ENERGY.
What cured this woman—and there is no inherent improbability in the statement that she is cured—was what cures thousands of people who have been made sick by it in the first place. It was, in a word, imagination, which is, however, a very real thing, among the most potent of physical agencies. The mass of authentic evidence going to show that the imagination can and commonly does influence the body in the most direct and powerful manner long since put beyond controversy the fact that body is under the control of mind to an extent which might seem scarcely credible to such as have not studied the subject.

Dr. W. B. Carpenter, in his admirable treatise on mental physiology, prefers to denominate the influence which effects organic changes in cases of disease "expectant attention." His theory is—and it is now generally accepted—that in these cases the patient believes something will happen, expects a favorable crisis, fixes his or her mind upon the affected part or the sickness generally, and thus unconsciously sets up therapeutic action. More closely analyzed it will be found that the mental process involves an exercise of faith and an act of volition. The patient anticipates a cure, believes in its possibility, and so contributes to its accomplishment.

SORCERY AND WITCHCRAFT.
Every physician knows that in serious illness it is of the first importance that the patient should be hopeful, and should will recovery. When the desire of life from any cause ceases or great mental depression exists, a comparatively slight attack of disease may prove fatal. When the desire of life is strong, and attacks on the vitality may be repulsed. The part played by the will and the imagination in disease is always influential and often the dominant one. The old tales of sorcery and witchcraft are by no means all fiction. The things related happened in ages when people believed easily in occult and malignant powers, and the explanation of a great deal in those days must be sought here, and not in the theory of hallucination. If an ignorant negro firmly believes that he is "voodooed," he may, and often does, fall sick. There is no delusion about that. The illness is real. But it is caused by delusion none the less, for it is the direct result of faith in powers which do not exist.

The subject is one of deep interest and serious importance to medical science. More and more the wise and skillful physician must address himself to curing the body with the help of the mind. He must "administer to a mind diseased," in fact, frequently, if he wishes to restore the physical organism to health; and the simpler the mind to be dealt with the easier will it be found, as a rule, to employ it therapeutically. In the South Carolina case a bogus charm operated precisely as it was expected the real one would do.—New York Tribune.

Funny; Very, Very Funny.

"It is better to laugh than he sighing"
says the old song, and such is the
opinion entertained by the generality
of mankind. The large audiences every-
where attracted to witness that most
laughable of comedies, "Skipped by the
Light of the Moon," would seem to
abundantly prove. "Skipped" will be
seen at the opera house on next Monday
evening, and our amusement patrons are
promised a rare treat in this production,
of which the Pittsburgh Leader says:

The strongest, quaintest, oddest, drollest,
funniest, most ludicrous characters, scenes
situations, sayings and doings are embodied
in this play. Humor of the most unctuous,
rollicking, jovial, side-splitting character, in
its distinguishing feature. Much laughter as
it evokes wherever it is produced has never
been heard with in the walls of any theatre
in this city.

cure the construction of the plant. The

MISS GERTRUDE OSBORNE died last night
at the home of her parents, Mr. and
Mrs. T. D. Osborne, near Tuckahoe.
The deceased was seventeen years of age,
and was an estimable young lady. She was
taken ill with typhoid fever about seven
weeks ago, shortly after returning from
Kansas City, where she had spent the
summer with relatives. The funeral will
take place to-morrow at 10 a. m. at the
family residence, after which the remains
will be interred in the Maysville ceme-
tery.

JUDGE FOLEY, of Louisville, has ren-
dered a decision that may prove of inter-
est to several Maysville speculators. In
1887, Mr. John Galt, a broker, made a
deal in L. and N. stock on a rising mar-
ket with Hodgen & Miller, and deposi-
ted with them \$700 as margin on collat-
erals, but before a demand for the money
and profits was made the concern broke,
and Galt was referred to the assignee,
who rejected his claim.

Monday Judge Toney held that the
transaction between Galt and Hodgen &
Miller was either a bet on the advance of
stock or was a legitimate purchase. If a
bet or wager, as the deals were never
closed and Galt never lost, it can not be
claimed Galt's claim is for money lost at
gambling. If it were not a bet, as Hodgen
& Miller have assigned and are unable
and have failed to carry out their con-
tract, they are liable to Galt as for money
had and received to the extent of the
unreturned collateral. In either case,
the assignee or Commissioner erred. The
Commissioner was directed to allow
Galt's claim.

Six Additions.

Another large crowd was present at
the M. E. Church, South, last night and
listened intently to an able discourse by
Rev. Mr. Morrison. His text was from
Ecclesiastes, twelfth chapter and first
verse: "Remember now thy Creator, in
the days of thy youth, while the evil days
come not, nor the years draw nigh, when
thou shalt say, I have no pleasure in
them." At the conclusion of the sermon
six went forward and joined the church.

Services again this afternoon at 3
o'clock and to-night at 7 o'clock. Mr.
Morrison will preach to the young men
to-night, and the young ladies to-morrow
night. All are invited.

Professor Fogg, the cornetist, is assist-
ing the choir.

Brick Streets.

Lexington papers are advocating the
construction of brick streets, claiming
them to be the best and cheapest. The
Press says:

Colonel Edmonson reports that he ex-
amined the brick streets at Galesburg, Illinois,
during his recent visit to that place. He saw
a street that has been in use for five years,
and is in as good condition as the day it was
made. These streets are free from dust and
mud and the cost of repairs is practically
nothing. They are being adopted in a great
many of the Western cities, and, cost con-
sidered, are the best streets that can be
made. They will last twenty-five or thirty
years. We have urged, time and again, the
importance of our City Government laying
out brick streets as a test, believing that the experi-
ment will convince every resident in our
city that brick streets are what we want.
Columbus, Ohio, has made a similar experi-
ment, and the result is a contract for thir-
teen miles of brick streets to be made as rap-
idly as possible.

OUR NEIGHBORS.

SARLES.

The oyster and ice-cream festivals at this
place on Friday and Saturday nights at the
"Buckler House" were liberally patronized.
The ladies of Shannon and Sarles did them-
selves proud. Ray's Cornet Band gave some
new pieces. The purveyance of the M. E.
Church, South, was the beneficiary of this
occasion, and will at once be put in good
winter order. Thanks to the generous com-
munity and the working girls who got it up.
We tip our beaver to Mr. Anderson in his
cozy winter quarters—in prospect.

SHANNON.

Mr. John Cole was made the happy recipi-
ent of a surprise birthday dinner party on
Tuesday, Nov. 13, the 8th anniversary of his
birth. In the old family home around a
daintily and abundantly spread table, the
children sent in the edibles unbeknown to
the old gent who seated the venerable and
progeny—children, grand children and
one little great-grand child—representing
four generations of manly vigor, womanly
grace and sweet byblood. The scene was
a sight to behold. One child for every mile
post on the highway of life that the grand
father had passed—85 in all. It was a day of
unlimited feasting and rejoicings, warm
hearted greetings and glad memories. "Uncle
Johnnie," as all his nephews call him, and
their name is legion, is a thoroughbred
Harrison man, having voted for "old Tip" in '36
and '40 and "young Tip" in '88. He smokes a
cigar occasionally but never touches "the
cup which cheers and inebriates."
